

Job position title: Assistant Professor in Clinical Hematology

Department of Clinical Hematology and Cell Therapy

Avicenne University Hospital, Assistance Publique-Hôpitaux de Paris

Affiliated with Sorbonne Paris Nord University & Département médico-universitaire Hématologie-Immunologie (Hôpitaux Saint-Louis, Robert Debré, Avicenne)

Bobigny, Paris Metropolitan Area

Position Overview

We invite applications for an Assistant Professor position in Clinical Hematology at Avicenne University Hospital, located in the dynamic and diverse Paris metropolitan area. This role offers a unique opportunity to combine high-level clinical practice, academic teaching and mentorship within a leading university hospital environment. You will join a department recognized for its commitment to innovation in the treatment of acute leukemias and aggressive lymphoid malignancies, where therapeutic intensity, rapid decision-making and multidisciplinary collaboration are at the heart of daily practice.

Clinical Responsibilities

At the core of this position is the supervision of the Hematology Intensive Care Unit, where you will:

- Lead the management of patients undergoing complex, life-saving treatments
- Gain and refine expertise in high-dose chemotherapy, management of complications and emerging cellular therapies
- Work closely with experts in transfusion medicine, infectious diseases, intensive care and translational research

This setting provides an exceptional platform to accelerate your clinical mastery in the most challenging and rapidly evolving areas of hematology.

In parallel, you will conduct a weekly specialized outpatient consultation, tailored to your clinical expertise and interests in myeloid and/or lymphoid malignancies.

Academic & Teaching Duties

As part of your academic appointment with Sorbonne Paris Nord University, you will:

- Teach undergraduate and postgraduate courses in fundamental and clinical hematology
- Supervise and mentor medical students and residents, fostering a collaborative and intellectually stimulating learning environment
- Contribute to the academic life and pedagogical innovation of the department

This role offers strong opportunities for leadership in both clinical and academic domains.

Research Opportunities

The department encourages participation in clinical and translational research, with access to established research networks and platforms in hematology and cell therapy.

Why Join Us?

- Work in a high-acuity, intellectually stimulating clinical setting
- Join a renowned teaching hospital within the Paris academic ecosystem
- Engage in multidisciplinary collaboration and innovation
- Enjoy a vibrant location in the greater Paris area, with rich cultural and professional opportunities

Candidate Profile

- MD with specialization in Hematology

- Academic experience suitable for Assistant Professor level
- Strong interest in intensive hematology and hematologic malignancies
- Commitment to teaching and mentorship
- Ability to work in a collaborative, high-performance environment

Application

Interested candidates are invited to submit a CV, cover letter and references to Professor Thorsten Braun, MD, PhD (email address: thorsten.braun@aphp.fr)
